DRESSING & ATTIRE IN PAKISTAN

In consideration of the cultural norms and values of Pakistan, which is a predominantly Muslim country, Adventure Planners Pakistan emphasizes the importance of modest dress for all participants during the tour. Modesty in attire is not only a sign of respect for the local culture but also contributes to a harmonious and enjoyable travel experience. Participants are requested to adhere to the following dress guidelines:

General Guidelines: Dress modestly to respect the local customs and traditions.

Avoid clothing that may be considered revealing or inappropriate in a conservative cultural setting.

Loose-fitting and breathable clothing is recommended for comfort, especially in warm weather.

Women's Attire: Long skirts, loose-fitting pants, or dresses that cover the knees are encouraged.

Tops with sleeves that cover the shoulders are preferred.

Avoid low-cut necklines and sheer or tight-fitting clothing.

Men's Attire: Long pants or trousers are recommended.

Shirts with sleeves are encouraged; short sleeves are acceptable.

Avoid clothing with offensive graphics or messages.

Footwear: Comfortable and closed shoes are recommended, especially for tours involving walking or hiking.

It is customary to remove shoes when entering certain religious or cultural sites, so easily removable footwear is practical.

Cultural Sites and Religious Places: When visiting mosques, shrines, or other religious sites, it is essential to cover the shoulders and knees.

Women may be required to cover their hair with a scarf when entering certain religious places

ELECTRIC SWITCHES AND PLUGS

In Pakistan, two types of electrical sockets are commonly used:

Type C Socket:

This socket has two round pins.

It operates on a standard voltage of 230V with a frequency of 50Hz.

Type C sockets are commonly used in Europe, South America, and Asia.

Type D Socket:

This socket has three round pins in a triangular pattern.

It operates on a standard voltage of 230V with a frequency of 50Hz.

Type D sockets are used in some parts of Asia and Africa.

When traveling to Pakistan, make sure to bring the appropriate travel adapter to match the type of plug used in your home country with the socket type in Pakistan. Additionally, be aware of the voltage requirements of your electronic devices and use a voltage converter if needed. Many modern electronic devices are designed to handle a wide range of voltages, but it's essential to double-check the specifications for each device.

Remember that power outages and fluctuations can sometimes occur, so it might be useful to bring a surge protector or voltage stabilizer, especially if you are carrying valuable electronic equipment.
